The City of Stockton currently provides a Surface Water Diversion Report to the State Water Board for water used at the Delta Water Supply Treatment Plant. The Delta Water Supply Treatment Plant (DWSP) is unique in that the State Water Board considers the water drawn out of the Sacramento-San Joaquin Delta waterways is neither Senior nor Junior water rights; the DWSP only intakes what the City's Regional Wastewater Control Facility discharges.

Verification of reporting on Water Right Permit 021176 (A030531A) for the City of Stockton's diversions from the San Joaquin River taken from the SWRCB e-WRIMS website is presented as Figure 14.
