

Changes to Chapter 2: Regional Description

Old Chapter

The old version of this chapter described the region's boundaries, geography, climate, hydrology, water quality, and other characteristics.

New Chapter

The new chapter cleaned up some miscellaneous language and made the following changes with respect to the new plan standards:

- Included a 20 year planning horizon
- Added material on social and cultural makeup
- Further described and justified the boundaries
- Added material on neighboring IRWM regions
-
