**NORTH COW CREEK 1/**

(Schedule VII, Decree #5804)

**Notes:**

- 1/** Decree 5804 allocated water rights from North Cow Creek on a rotation basis except decreed owners California Zinc Company and L. G. Phillips (see paragraph 46 and Schedules III and IV). In 1934, the decreed rotation water users requested the distribution of water on a continuous flow basis. Since then, the water rights for North Cow Creek and the watermaster billing have been based on Schedule VII. Also, paragraph 56 allows the sale, exchange, or lease of the water rights defined for North Cow Creek.
- 2/** Tract 2 decreed water right was from Tolidy Spring (0.85 cfs) and unnamed spring (0.15 cfs) only. Tract 2 (2A) presently also includes 0.23 cfs transferred from Decreed Owner W. A. Calkins (2A is not a DWR Tract) and 0.23 cfs from Decree Owner Red River Lumber Co. (TR 2B) The 0.23 cfs is only a portion of the decreed Red River Lumber Co. water right amount. See DWR files for transfer doc. (Tract 2B is not a DWR Tract)
- 3/** John Wright (Tract 7-2) has allowed Mountain Church of Hope to use 3/4 in. pipe to divert from Benbow Ditch.
- 4/** The minimum Diversion #29 (Pehrson-Grant-Jones) can be reduced to is 0.80 cfs. See paragraph 46.
- 5/** Tract 25 water right of 0.11 cfs is currently supplied by return flow from Tract 14. Add Tr. 14 to Tr. 25 for total C.B. Jones.
- 6/** The water right for Tract 87 is currently used on Tract 26. (Both Tracts are owned by G. Rutherford.)
- 7/** The water right for Tract 51-2 (0.02 cfs) was transferred to Tract 75. The Coronado Copper and Zinc water right (Tract 51-2) was quitclaimed to Melton, see Shasta Co. Book 552 Page 273, 274.
- 8/** The water rights for Tracts 9 and 80 are currently used on Tract 58. All Tracts are owned by the Rickert Family.
- 9/** The Cook and Butcher Ditch President and Directors determine water rights per their bylaws, by shares, and not be decreed irrigated acreage in the decree. Therefore billing is per Cook and Butcher Water Users Group directions. For the most recent ownership, as well as shares billed, see the files in the directory: R:\Sections\Watermaster\Service\_Area\_Tables\Cow\Cook & Butcher\ . Currently the most recent update was in 2009.
- 10/** Total does not include 5.0 cfs export from Mill Creek (tributary to North Cow Creek) by the Welch-Strayer and Excelsior Ditches to Oak Run Creek. See paragraphs 4 and 5, Decree 5804 and Oak Run Creek field schedule. Also does not include water rights from Cedar Creek (6.90 cfs).
- 11/** Water right amounts for DWR Tract 27-1, and 27-3 are ammended because of transfer of 0.06 cfs, which is allowed per parg 56 of Decree No. 5804. DWR Tract 27-1 transferred 0.06 cfs to DWR Tract 27-3 via quitclaim deed dated and recorded April 14, 2004. Copy of letter and deed located in watermaster files.
- 12/** A water right of 0.504 cfs was quitclaimed from Tract 7-1 to DWR Tracts 12-8 and 12-9 (DWR TR 12-4-1 prior to recent reappropriation). See Shasta Co. 2005-0068228 dated 15 November 2005, from Emerald to Trammel.
- 13/** See paragraph 29 Decree 5804.  
Cell E217 sums total (present) water rights. Total (present) water rights equals 22.486 cfs which is 78.6% of the trigger value of 28.60 cfs. Flow less than 28.60 cfs is described in Decree 5804 as the flow rate at which rotations should begin value of 28.60 cfs. Flow less than 28.60 cfs is described in Decree 5804 as the flow rate at which rotations should begin.
